THE SMALL GARDEN'S BEST FRIEND

The new **FineCut 230V** electric lawn and edge trimmer is the perfect solution for smaller lawns around the home.

With a cutting width of 25 cm and an innovative dual blade system, the **FineCut 230V** delivers the best cutting quality according to the scissor principle. The compact and lightweight design makes it ideal for angled gardens and enables space-saving storage.

The unit not only cuts precisely to the edge, thanks to its adjustable handle angle, it is even possible to work comfortably under bushes and shrubs and, on top of that, it is much quieter than conventional mowers. Thanks to its adjustable cutting height, insects on the ground can be spared.

The **FineCut 230V** is the ideal choice for a well-kept and healthy lawn around the house.

Page 31

INNOVATIONS

CUTTING THE LAWN WITH THE MULTIBRUSH

GLORIA offers a lawn and edge cutter for the MultiBrush battery and electric brushes. This ensures the best cutting results on compact lawns. With a cutting width of 360 mm and a 3-stage cutting height adjustment, the counter-rotating, laser-cut blades reliably catch all blades of grass – and, thanks to the attachment design, even close to the edge right into the corners.

The **FineCut** is the ideal complement to the classic robotic mower, to cut edges or hard-to-reach corners cleanly.

GLORIA QUALITY MORE THAN JUST A WORD

The GLORIA product range is based on over 75 years of tradition and experience. The needs of our customers have always been at the centre of the development of new and innovative products. The result: reliable and powerful gardening units that set standards in terms of user-friendliness, ergonomics and quality.

In the manufacturing process of our products, only high-quality materials are used, of whose quality we are sustainably delighted. The manufacturing conditions are characterised by state-of-the-art technical equipment, experienced production staff and regular quality controls. Steel and stainless steel sprayers are also manufactured exclusively in Germany.

Made in Germany is still synonymous with compliance with the highest quality standards in our company. GLORIA products are manufactured in accordance with the ISO 9001 quality standard. This means a permanently consistent quality of our products and services. Numerous awards from independent institutions attest to the excellent safety level, conformity with valid directives, and the exemplary design of our products.

To ensure that our customers can also benefit from the quality of GLORIA equipment in the long term, GLORIA offers a 10-year guarantee on spare parts availability for all products in our range.

SMALL GARDEN – BIG EFFECT!

At the start of the new gardening season, I am delighted to give you an insight into what moves the gardening industry and us as a manufacturer of gardening tools.

We are leaving the year 2023 behind us. A year that was initially characterised by cautious consumer spending who were unsure about inflation and politics, combined with long and almost continuous periods of wet and cold weather. But GLORIA would not have been on the market for over 75 years if we had not learned to deal with and react to challenges. At GLORIA, we always strive to understand the needs of our customers and to offer innovative solutions that meet current trends and requirements.

One issue that affects us all and that has increasingly come into focus in recent years is limited living space. Urban spaces are becoming increasingly scarce, and the demand for green oases, especially in the urban environment, is growing steadily. Therefore, we have worked intensively on the development of products that are not only space-saving in storage, but also combine several problem-solving applications. We look forward to seeing our gardening tools back in use in the garden from spring 2024 onwards and are proud to present our new developments in the field of lawn care.

The battery lawn and edge trimmer FineCut 18V, launched in 2023, will get a family. From now on, the compact lawn mower will also be available as a corded version. The FineCut 230V

is the small garden's best friend and is ideal for all lawn cutting in smaller urban gardens. Convenient working is guaranteed by the lightweight and compact design, as is easy storage. Find out more about my highlight products for the new year in this price list.

No other device embodies the theme of versatility as well as our multibrush, which is constantly being further developed. The battery-operated and electric brushes have been our constant favourite since 2017. The space-saving system serves many problem-solving applications and can now already be operated with 11 different attachments. It makes me particularly happy to see how every customer finds their own individual use case.

Finally, I would like to emphasise how proud I am to be part of an industry that can have so many positive effects on people as well as our environment. Our gardens are not only places of aesthetics and relaxation, but also sources of inspiration. Thank you all for your commitment and passion for our industry. Let us work together to be able to enthusiastically care for and cherish the place of the garden, which is so precious to our customers.

I WISH YOU A SUCCESSFUL GARDENING SEASON 2024.

ELASTOMERS IN DETAIL

ABBREVIATION	PROPERTIES	APPLICATION PURPOSE
NBR 	Perbunan® is a highly elastic synthetic rubber with good mechanical properties and generally good resistance to swelling with versatile use.	GLORIA standard seal material primary for applications in sprayers for plant protection and gas fittings.
FKM 	Elastic synthetic rubber for industrial use. Very good resistance to hydro-carbons (oil, grease, solvents). Highly resistant to chemicals, temperature and aging.	Seal material for Proffline high-performance sprayers and equipment for special applications.
FKM+ 	Elastic synthetic rubber with a higher fluorine percentage for industrial use. High resistance to agents with hydrocarbon and paraffin. Good resistance in particular to solvent-containing agents.	Suitable for solvent-containing agents like brake und wheel cleaners, tar and stain removers or rubber care products.
EPDM 	Buna EP® has a high resistance to acids and bases. Poor resistance to hydrocarbons.	Used in the cleaning and food industry.
VMQ 	Silicone rubber. Silopren is characterized by a good resistance to chemicals and temperature. In addition, silicone has good physiological properties.	Used in the food-processing industry.

ICONS AT A GLANCE

	Transparent level indicator strip		LED function		Double-acting precision pump
	360° spray function		Plastic spray lance		With filling sieve
	No manual pumping necessary		Spray pipe and brass nozzle		With spiral hose (e.g. 2.5 m)
	No manual pumping necessary		Brass pump		Comfortable to use
	Automatic pressure generation		Continuously extending telescopic tube (e.g. from 0.58 to 1.0 m)		Stable foot ring
	Swivel nozzle		With extension tube (e.g. 50 cm)		Residual drainage
	Swivel nozzle head		With extension lance (e.g. 40 cm)		With compressor connection

SPRAYERS

PLANT PROTECTION & CARE FOR OVER 75 YEARS

UNDER PRESSURE TO PERFECTION

For over 75 years, the blue and yellow sprayers from GLORIA have been synonymous with quality and innovation around the house, garden and greenhouse. The particularly durable sprayers are mainly used in the garden for plant care and protection. But GLORIA also provides the right helpers for the industrial areas of cleaning and handicrafts.

Starting with high-performance fine and hand sprayers, the product range today includes a large selection of pressure sprayers made of plastic to high-performance sprayers made of steel or stainless steel for industry and trade. Large-volume backpack sprayers with a capacity of 12 to 18 litres round off the sprayer range and are particularly popular in agriculture.

The application possibilities of GLORIA sprayers are incredibly diverse thanks to numerous accessory options such as integrated pressure regulators, extension lances, spiral hoses and many others.

EFFECTIVE CROP PROTECTION WITH 270° PRECISION

The **270° plant protection set** from GLORIA is the perfect solution for efficiently combating pests such as the boxwood borer, which are located in hard-to-reach places, e.g. the undersides of leaves.

How it works: The lance is held inside the plant. In addition to a forward-facing hollow cone nozzle, the nozzle also has four additional precision nozzles, which are arranged in a circle. In this way, the entire plant is evenly wetted with the insecticide.

The set is suitable for all GLORIA garden pressure sprayers from 3 – 18 litres and is ideal for protecting plants.

SPRAY WITHOUT EFFORT THANKS TO BATTERY POWER

The **GLORIA Pro 1200 li-on** (page 20) is a battery-powered backpack sprayer for applying plant protection and weed control products in horticulture or agriculture.

Compatible with any Bosch 18V POWER FOR ALL battery, the unit automatically builds up the operating pressure without tiring and can spray for over 5 hours at a time (2.5 Ah). The backpack sprayer with a capacity of 12 litres lies comfortably on the back and is optimally suited for long working intervals thanks to the ergonomically shaped tank and the comfort belt system.

The **GLORIA battery compressor** (page 21), can be easily retrofitted to any other GLORIA 3 – 10 L pressure sprayer and supplies them with a permanent operating pressure between 1.5 and 2.5 bar. Especially for crop protection, a constant spray pattern is a guarantee for optimal work results.

POINT OF SALE

Attention-grabbing secondary placements in a compact format are standard at GLORIA. On the following pages, you will find all the display variants that we can offer you for use in the market. **Not found what you were looking for? Please contact us for an individual solution.**

DESIGN MEETS FUNCTION

The 1-litre **Hydronette li-on** is easy to operate at the touch of a button, fits perfectly in the hand and is ideal for applying water and plant protection products. An infinitely adjustable and swivelling nozzle as well as a 360° spray function ensure maximum flexibility for plant care. Thanks to an integrated battery, the fine sprayer can be used for up to 5 hours at a time. The device is charged with any USB-C charging cable.

BATTERY-OPERATED FINE SPRAYER **HYDRONETTE LI-ON**

Item No: 000960.0000

- **Battery-operated fine sprayer with integrated lithium-ion battery + USB-C charging function (incl. charging cable)**
- **Extremely long running time of up to 5 hours or 34 litres**
- Filling capacity 1.0 l / total volume 1.0 l
- High-quality feel thanks to cork and brass elements
- Swivelling and adjustable brass nozzle, e.g. for spraying the undersides of leaves
- 360° spray function thanks to flexible riser tube
- Integrated intake filter
- Ergonomic handle
- Mist-like atomisation

GENTLE WATERING FOR SMALL PLANTS AND SEEDLINGS

The **GLORIA prima 60** is the handy soft sprayer for watering seedlings and plants in cultivation. With the integrated 3-in-1 nozzle delicate plants can be watered and sprayed very gently or treated with a spot spray, preventing them from being flooded due to excessive amounts of water. The soft pressure bottle holds 600 ml and fits perfectly in the hand.

3-IN-1 NOZZLE

EXTRA CAPACITY

SOFT SPRAYER **PRIMA 60** (IN COUNTER DISPLAY)

Item No: 000840.0050

- Soft sprayer for gentle care of seedlings and plants in cultivation

BAN THE BOX TREE MOTH!

The 270° plant protection set is ideally suited for controlling pests or fungi in hard-to-reach places. An example of this is the widespread caterpillar of the box tree moth. During treatment, the insecticide is evenly distributed to all infested areas of the plant.

The practical attachment is suitable for all garden pressure sprayers from 3 – 18 litres.

270° PLANT PROTECTION SET

Item No: 729157.0000

- 2-in-1 nozzle: cone stream or 270° spraying
- Ideal for treating pests in hard-to-reach places

- Brass nozzle + four circular precision nozzles
- Brass spray lance
- Optimised application of plant protection products – also sprays the undersides of leaves
- Suitable for all garden pressure sprayers from 3 – 18 l
- Adjusting spray jet with actuator (no contact with the medium)

Units per pallet:	640
Packaging unit:	1
Type of packaging:	Cardboard
PU weight:	0.25 kg
PU dim. (H/W/D) in cm:	62.0 x 38.0 x 22.0
Device (H/W/D) in cm:	60.0 x 12.0 x 3.5
Weight:	0.29 kg

DISPLAY PRIMA 5 270° HOLDER

Item No: 729169.0000

- For placement on any GLORIA pressure sprayer display

- Dimensions (H/W/D) in cm: 14.5 x 61.0 x 22.0
- **Total content:**
6 x 270° plant protection set
2 x blister bar with hook

Units per pallet:	546
Packaging unit:	1
Type of packaging:	Carton
PU weight:	—
PU dim. (H/W/D) in cm:	14.5 x 61.0 x 22.0

PRESSURE SPRAYER HOBBY EXCLUSIV

Item No: 000262.0000

- Telescopic spraying tube with swivelling and adjustable hollow cone nozzle (length max. 1.0 m)
- Residual drainage
- Indicator pressure gauge

- Filling capacity 5.0 l / total volume 7.0 l
- Maximum operating pressure 3 bar
- Sturdy plastic container
- Powerful pressure pump
- Ergonomic comfort handle
- Kink protector for the hose
- Base ring for secure standing
- Transparent viewing strip for fill level control
- Sturdy shoulder strap with shoulder pad, portable on shoulder

Units per pallet:	63
Packaging unit:	1
Type of packaging:	4-colour carton
PU weight:	3.2 kg
PU dim. (H/W/D) in cm:	56.0 x 22.0 x 19.0
Device (H/W/D) in cm:	56.0 x 22.0 x 19.0
Weight:	2.59 kg

SPRAYERS

FOR ACIDIC PESTICIDES

PRESSURE SPRAYER **PRIMA 5 PLUS**

Item No: 000106.0000

- Resistant to acetic acid
- For the application of acidic pesticides

- Acid-resistant EPDM seals
- Filling capacity 5.0 l/total volume 7.0 l
- Maximum operating pressure 3 bar
- Plastic spray lance with adjustable plastic nozzle
- Plastic extension tube (length 0.5 m)
- Fabric-reinforced double-layer hose
- Powerful pressure pump
- Transparent viewing strip for fill level control
- Portable on shoulder

HIGH-PERFORMANCE SPRAYER 405 T

Item No: 000405.0000

- Sheet steel container with inner coating
- Residual drainage

- Filling capacity 5.0 l / total volume 8.0 l
- Maximum operating pressure 6 bar
- Brass spray lance with oflow cone nozzle
- Powerful brass pump
- Hose (length 1.35 m)
- Brass quick-acting valve with
- Indicator pressure gauge
- Base ring for secure standing
- Shoulder strap with shoulder pad, portable on shoulder

Units per pallet: 63
 Packaging unit: 1
 Type of packaging: 4-colour carton
 PU weight: 5.6 kg
 PU dim. (H/W/D) in cm: 58.0 x 23.0 x 22.0
 Device (H/W/D) in cm: 57.0 x 23.0 x 22.0
 Weight: 4.8 kg

HIGH-PERFORMANCE SPRAYER 410 T

Item No: 000410.0900

- Sheet steel container with inner coating
- Infinitely adjustable operating pressure (1 – 3 bar)
- Residual drainage

- Filling capacity 10.0 l / total volume 13.7 l
- Maximum operating pressure 6 bar
- Brass spray lance with JKI-approved hollow cone nozzle
- Powerful brass pump
- Hose (length 1.35 m)
- Quick-acting valve
- Base ring for secure standing
- Carrying strap with quick-release system and padding, portable on back

Units per pallet: 45
 Packaging unit: 1
 Type of packaging: 4-colour carton

* Battery/rechargeable battery/charger are not included. ** Depending on battery/rechargeable battery power.

18 V BATTERY POWER ON THE BACK!

An automatic pressure build-up and over five hours of running time (18 V, 2.5 Ah battery) with an output volume of 180 l. Sounds good? Sounds like the **GLORIA Pro 1200 li-on**, the new battery-powered knapsack sprayer for large-scale applications of plant protection products in the commercial sector, among others.

Compatible with any BOSCH 18V POWER FOR ALL rechargeable battery, the knapsack sprayer lies comfortably on the back thanks to the ergonomically shaped back contour and the comfort strap system, making it ideal for long working intervals. A hollow cone and flat spray nozzle make the Pro 1200 li-on ready for use for plant protection and weed control.

18 V

BATTERY KNAPSACK SPRAYER PRO 1200 LI-ON

Item No: 000067.0000

- Compatible with all BOSCH 18V POWER FOR ALL batteries (battery/charger not included)
- Automatic build-up of 3 bar operating pressure in the unit (650 ml/min) with integrated brass hollow-cone nozzle

- Filling capacity 12.0 l/ total volume 12.6 l
- Powerful 18 V diaphragm pump
- No manual pumping
- Battery runtime: 2.5 Ah: 3.5 h, 4.0 Ah: 5.6 h
- Incl. herbicide flat spray nozzle (2 bar operating pressure + 950 ml/min)
- Incl. 1 mm hollow cone nozzle for insecticides and fungicides (3 bar operating pressure + 650 ml/min)
- Ergonomically shaped back contour
- Comfort belt system
- Splash-proof battery compartment

DRAWS LIQUID
FROM ANY SOURCE

18 V

36 V

230 V

MULTIJET SYSTEM

CLEANING · WATERING · FOAMING · SPRAYING · BRUSHING

- **BATTERY OR ELECTRICAL**
- **MULTIFUNCTIONAL** – NUMEROUS ACCESSORIES
- **FLEXIBLE** – THREE PRESSURE LEVELS
- **DRAWS LIQUID** FROM ANY SOURCE

The garden furniture is dirty, the car is in urgent need of a wash, the mountain bike is filthy after the tour in the mountains and the plants in the home garden are in urgent need of a little care. Sounds like a lot of work and a lot of equipment. **With GLORIA, you can do all this with a single device: MultiJet, because everyone needs one!**

The MultiJet high-performance spraying systems can clean, foam, brush, water and are also suitable for the application of plant protection products. And all this without a water connection. The products draw liquid from any source, whether it's the water supply in your garden or

the lake or a bucket on the way. Even a standard PET bottle can be clicked on (MultiJet 18V).

The customer has the choice between two handy battery devices (MultiJet 18V and 36V) and an electric version (MultiJet 230V), according to the needs. Depending on the model, the units work with a maximum operating pressure of 24,9 – 120 bar, which can be adjusted in three stages, so that the customer can powerfully remove dirt as well as apply plant protection products with a single unit. The numerous accessories naturally fit to all three units.

YOUR MUST-HAVE!

18V – BOSCH BATTERY POWER

The MultiJet 18V is compatible with every BOSCH 18V POWER FOR ALL battery and cleans sometimes gently and sometimes powerfully thanks to the multifunction nozzle and adjustable operating pressure. The unit draws liquid from any source. Practical accessories let the MultiJet 18V spray, foam, brush or apply plant protection products.

36V – YOU NEED MORE?

With up to 70 bar max. pumping power, the MultiJet 36V cleans, foams and sprays. A 36 V/4.0 Ah battery provides sufficient runtime. Its handy size makes this lightweight the ideal aid. Whether cleaning, caring for plants or after a bike ride: put the suction hose in a bucket, lake or on the tap, select the pressure level and off you go.

230V – WITH HIGH PRESSURE!

The MultiJet 230V really puts the pressure on. With a max. operating pressure of 120 bar, even the most stubborn dirt around the house will give way. The high-pressure cleaner will impress with numerous features. An adjustable operating pressure and a multifunction nozzle make the unit maximally flexible. All accessory options can also be used for the 230 V unit.

MAX.
24.9 BAR

18 V

MULTIJET 18V INCL. BATTERY

Item No: 000301.0000

- Incl. BOSCH 18V/2.5 Ah POWER FOR ALL battery + charger
- Three adjustable pressure levels (Spray, Eco, Clean)
- Draws liquid from any source

- **Battery high-performance spraying system**
- Running time 11 min (Clean) – 80 min (Spray), max. flow rate 240 l/h
- 4-in-1 multifunction nozzle (point/flat jet nozzle, turbo rotor nozzle, sprinkler)
- Incl. 40 cm extension lance
- Integrated battery charge indicator
- 5 m suction hose (3/8") incl. dirt filter
- Adapter for connection to PET bottle

POWER FOR ALL!

Save money, space and time with one single battery.

GLORIA is part of the BOSCH **POWER FOR ALL** ALLIANCE. Every BOSCH **18V POWER FOR ALL** battery from 1.5 to 6.0 Ah is compatible with all GLORIA battery units*.

* Exception: MultiJet 36V with integrated battery.

** Bosch PSM 18 LI + Bosch ALB 18 LI only compatible with 1.5 Ah – 3.0 Ah battery types.

BOSCH

One of the largest cross-brand battery systems

100% compatibility within the POWER FOR ALL ALLIANCE.**

The greatest variety of applications around your home.

Cross-brand system, flexible, expandable by many units.

Save space.
Save money.
Save the environment.

STONE

WOOD

JOINT

EDGE

LAWN

VARIETY, THAT INSPIRES!

MULTIBRUSH – THE ALL-ROUNDER WITH UP TO 11 APPLICATIONS

The two MultiBrush units are true all-rounders. In addition to treating stone and wood surfaces, they can be used to clean joints, cut edges and treat lawns. The attachments can be changed within a short time without tools at the touch of a button.

An infinitely variable speed control in the handle area provides extra flexibility in use. For example, wood surfaces can be powerfully freed from dirt, and maintenance oils can be gently worked in with the same tool.

The MultiBrush is available with a powerful electric motor (**MultiBrush speedcontrol PLUS**) and as a flexible battery version (**MultiBrush li-on PLUS**) with BOSCH battery power.

BOSCH BATTERIE POWER

Our two battery brushes are compatible with all BOSCH 18V POWER FOR ALL batteries and offer flexibility without the need of electric cables.

WEEDBRUSH – THE JOINT CLEANERS

The WeedBrush devices are the ideal helpers to free joints from weeds and moss. The otherwise laborious manual work is done within a very short time, comfortably and back-friendly while standing.

The weed brushes are available with a powerful electric motor (**WeedBrush**) and as a flexible battery version (**WeedBrush li-on**) with BOSCH battery power.

LAWN AND EDGE CUTTER FINECUT

The attachment ensures the best cutting results on compact lawns. With a cutting width of 360 mm and 3-stage cutting height adjustment, the counter-rotating laser-cutting counter-rotating, laser-cut blades reliably grasp all blades of grass – even close to the edges and into the corners thanks to the attachment design.

The FineCut attachment is compatible with the MultiBrush PLUS units.

230 V

MULTIBRUSH SPEEDCONTROL PLUS

Item No: 000298.0000

MULTI-FUNCTION

- Up to 11 integrable attachments
- Tool-free accessory change

MOWING THE LAWN WITH THE MULTIBRUSH

GLORIA now offers its customers a new lawn and edge cutter for the MultiBrush battery and electric brushes. This ensures the best cutting results on compact lawns. With a cutting width of 360 mm and a 3-stage cutting height adjustment, the counter-rotating, laser-cut blades reliably catch all blades of grass – and, thanks to the attachment design, even close to the edge right into the corners. The **FineCut** is the ideal complement to the classic robotic mower, to cut edges or hard-to-reach corners cleanly.

The **FineCut** attachment is compatible with the MultiBrush PLUS units.

FINECUT-ATTACHMENT MULTIBRUSH

Item No: 729220.0000

• Attachment for lawn and edge cutting

- The ideal complement to the robotic mower
- Working close to the edge, right into the corner
- Extra large cutting width of 360 mm
- Counter-rotating, laser-cut knives
- Adjustable cutting height 3/4/5 cm
- Suitable for the MultiBrush PLUS units

Packaging unit: 1
Type of packaging: 4-colour carton
Weight: 2.3 kg
Dim. (H/W/D) in cm: 39.0 x 20.5 x 17.0

STONE BRUSH MEDIUM

Item No: 728834.0000

• For coarse soiling such as moss or green build-up

- Nylon brush (Ø 100 mm, width 165 mm)
- Suitable for large and smooth surfaces, not suitable for sealed surfaces
- Suitable for all MultiBrush units

Packaging unit: 1
Type of packaging: 4-colour carton
Weight: 0.49 kg
Dim. (H/W/D) in cm: 17.0 x 11.0 x 11.0

LAWN AERATOR

Item No: 729160.0000

• Removes lawn thatch and moss

- 28 spring steel tines
- Ø 100 mm, width 165 mm – work into the smallest corner
- Smooth running and little effort
- Suitable for all MultiBrush units

Packaging unit: 1
Type of packaging: 4-colour carton
Weight: 0.5 kg
Dim. (H/W/D) in cm: 17.0 x 11.0 x 11.0

SCARIFIER ROLLER

Item No: 729161.0000

• Scores the soil surface, removes lawn thatch and moss

- Ideal for optimised nutrient uptake of the soil
- 8 non-rusting stainless steel knife discs
- Ø 100 mm, width 165 mm – work into the smallest corner
- Smooth running and little effort
- Suitable for all MultiBrush units

Packaging unit: 1
Type of packaging: 4-colour carton
Weight: 0.6 kg
Dim. (H/W/D) in cm: 17.0 x 11.0 x 11.0

ARTIFICIAL GRASS ROLLER

Item No: 729210.0000

• Setting up/cleaning artificial grass surfaces

- Ø 100 mm, width 165 mm
- Spiral design for effective work
- Suitable for all MultiBrush units

Packaging unit: 1
Type of packaging: 4-colour carton
Weight: 0.5 kg
Dim. (H/W/D) in cm: 17.0 x 11.0 x 11.0

STONE BRUSH PRO

Item No: 729010.0000

• For stubborn soiling such as lichens

- Brass-coated steel wire brush (Ø 100 mm, width 165 mm)
- Not suitable for polished, sanded or sealed natural/artificial stone surfaces
- Suitable for rough/non-sealed surfaces (granite, porphyry, etc.)
- Suitable for all MultiBrush units

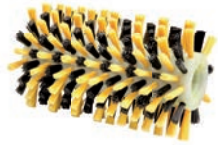

Packaging unit: 1
Type of packaging: 4-colour carton
Weight: 0.75 kg
Dim. (H/W/D) in cm: 17.0 x 11.0 x 11.0

WOOD BRUSH UNIVERSAL

Item No: 728833.0000

- **Cleaning and care of wood/WPC surfaces**

- Nylon brush with bristles of different lengths (Ø 100 mm, width 165 mm)
- For gentle cleaning of the surface as well as grooves, joints and gaps
- Suitable for all MultiBrush units

WOOD

Packaging unit: 1
 Type of packaging: 4-colour carton
 Weight: 0.49 kg
 Dim. (H/W/D) in cm: 17.0 x 11.0 x 11.0

CUT&BRUSH 2-IN-1 EDGE CUTTER

Item No: 728964.0000

- **Cleaning and maintenance of overgrown paths or curbs from overhanging grass**

- Slotted stainless steel disc (Ø 150 mm, width 1 mm) cuts into the soil, grabs blades of grass and shortens them
- Nylon brush (Ø 100 mm, width 50 mm) cleans the stone edge of moss and dirt
- Suitable for all MultiBrush units

EDGE

Packaging unit: 1
 Type of packaging: 4-colour carton
 Weight: 1.0 kg
 Dim. (H/W/D) in cm: 19.0 x 19.0 x 13.0

STEEL WIRE JOINT BRUSH

Item No: 728835.0000

- **For the removal of weeds from in between terrace joints and walkway slabs**

- Brass-coated steel wire brush (Ø 110 mm, width 12 mm)
- Standing time approx. 3 h on concrete block
- Suitable for all MultiBrush and WeedBrush units
- Already included in the MultiBrush and WeedBrush units

JOINT

Packaging unit: 1
 Type of packaging: 4-colour carton
 Weight: 0.15 kg
 Dim. (H/W/D) in cm: 12.0 x 12.0 x 2.0

NYLON JOINT BRUSH

Item No: 729068.0000

- **For the removal of weeds from in between joints of scratch-sensitive terraces and walkway slabs**

- Nylon brush (Ø 110 mm, width 12 mm)
- Suitable for all MultiBrush and WeedBrush units

JOINT

Packaging unit: 1
 Type of packaging: 4-colour carton
 Weight: 0.15 kg
 Dim. (H/W/D) in cm: 12.0 x 12.0 x 1.6

SPECIAL CLEANER**STONE SPECIAL CLEANER, 1 L**

Item No: 001130.0000*

- Suitable for all natural, artificial and concrete stone surfaces
- Powerfully dissolves oil/grease-containing soiling and deposits

pH 11 > 250 m²

Packaging unit: 4
 Type of packaging: Outer box
 PU weight: 4.8 kg
 PU dim. (H/W/D) in cm: 30.0 x 17.0 x 17.0
 Weight: 1.1 kg

WOOD/WPC SPECIAL CLEANER, 1 L

Item No: 001120.0000*

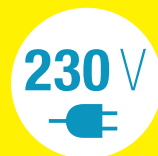

- Powerful cleaner for all untreated/treated wooden surfaces as well as WPC surfaces
- Dirt remover for grease and other soiling

pH 9,5 > 50 m²

Packaging unit: 4
 Type of packaging: Outer box
 PU weight: 4.7 kg
 PU dim. (H/W/D) in cm: 30.0 x 17.0 x 17.0
 Weight: 1.1 kg

THERMOFLAMMbio

THERMAL WEED CONTROL WITHOUT CHEMICALS

Thermal weed control offers a practical and effective alternative to chemical weed killers to get rid of the annoying weed growth around the house. The use of chemicals is not permitted on paved surfaces such as garage driveways or sidewalks. The Thermoflamm bio series consists of five different weed burners and removes weeds conveniently and effectively. The units can be used flexibly, especially in hard-to-reach places such as outdoor stairs or terraces.

The model **Classic PLUS** and **Comfort PLUS** are equipped with an automatic ignition mechanism for safe handling. The gas-powered units are completed by the **Thermoflamm bio Professional PLUS**, which is used for large areas. The **Thermoflamm bio Electro** removes weeds with a heat jet of up to 650 °C instead of a gas flame. Our fastest way to remove weeds is with the **Thermoflamm bio Fix** with its 800 °C hot heating coil. A working surface of 150 cm² on 4 guide wheels offers fast and comfortable working progress. With the **Thermoflamm bio Professional E+ Turbo**, the complete operation, including start ignition and gas regulation, is conveniently carried out on the handle. There is no need to bend down and light the fire manually with a lighter.

Practical additional use: Ignition of barbecue charcoal/firewood

Easy locking of the gas cartridge

Piezo-ignition:
The push of a button is enough

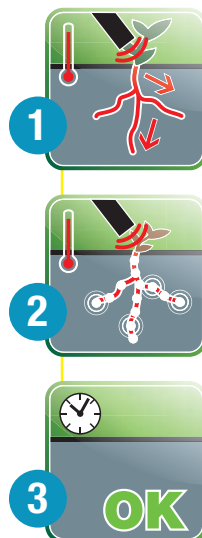

SIMPLE
OPERATION

DID YOU ALREADY KNOW?

Strict legal regulations apply to the use of plant protection products. On the one hand, these may only be applied if they are approved by legislators. On the other hand, they must not be spread on paved outdoor areas. This means that the use of chemical or biological agents for weed control without approval – such as vinegar and salt – is prohibited. Violations are punishable by a fine.

The reason: The applied agents cannot seep down through the soil on closed areas. The next rain shower washes the chemical residues from the soil and feeds them unfiltered into the sewage system. Here, they ultimately cause considerable problems for the water-works in terms of treatment.

HOW IT WORKS:

Hold the Thermoflamm bio unit over the weed for a few seconds. **Burning the plant is not necessary!**

Chemical process starts, the plant poisons itself.

Within a few days the plant dries up.

THERMOFLAMM BIO CLASSIC PLUS

Item No: 000294.0000

- Weed control by means of gas
- Incl. 1 gas cartridge*
- Flame torch for weed control
- Lengths of 87 cm

THERMOFLAMM BIO GAS CARTRIDGE

Item No: 728303.0000

- Gas mixture of butane and propane
- 330 g, 600 ml
- 70% butane, 30% propane
- Ø 6.5 cm, height 26 cm, weight 0.46 kg

Packaging unit: 24
 Type of packaging: Carton
 PU weight: 11.2 kg

DISPLAY THERMOFLAMM BIO GAS CARTRIDGES

Item No: 729124.0000

- For promotion campaigns and additional placements

- GLORIA grid box
- **Total content:**
120 x gas cartridges

Units per pallet: 1
 Packaging unit: 1
 Type of packaging: Outer box
 PU weight: 63.0 kg
 PU dim. (H/W/D) in cm: 78.0 x 54.0 x 56.0

PUSH THE BUTTON!

With the **Thermoflamm bio Professional E+ Turbo** the complete operation incl. ignition and gas regulation of the device is conveniently done at the handle. There is no need to bend down and ignite it manually with a lighter. A simple AAAignon cell is sufficient for many thousands of ignitions. Thanks to its innovative turbo nozzle, the burning capacity is increased by up to 10% while gas consumption remains the same.

THERMOFLAMM BIO PROFESSIONAL E+ TURBO SET

Item No: 000274.0000

GAS

- Weed control by means of gas
- Professional technology for large areas
- For connection to a compressed gas cylinder
- Innovative electric ignition on the handle

• Flame torch for weed control

- Lengths of 93 cm
- Device chrome-plated and corrosion-resistant
- Burner nozzle F60 mm
- Incl. 5.0 m hose + pressure reducer
- More burning power thanks to turbo nozzle (with the same gas consumption)
- Flame temperature of up to 1,200 °C
- Additional use: ignition of barbecue charcoal/firewood

Units per pallet: 72
 Packaging unit: 6
 Type of packaging: 4-colour carton
 PU weight: 13.1 kg
 PU dim. (H/W/D) in cm: 103.0 x 23.0 x 36.0
 Device (Length) in cm: 93.0 cm
 Weight: 1.7 kg

THERMOFLAMM BIO ELECTRO

Item No: 000173.0000

- **Weed control by means of a 650 °C heat jet**
- **Electrical operation at the touch of a button**
- **Comfortable length from 116 cm**

- **Electric weed burner for weed control**
- Motor 230 V, Power 2,000 W
- Ergonomic guide handle
- Operation only possible while the button is pressed
- Optimised heat protection to the outside thanks to the cone nozzle
- Integrated stand for cooling down the unit
- Additional use: Ignition of barbecue charcoal/firewood

GARDENBOY PLUS

SOIL CULTIVATION
THE LOOSE WAY

1 UNIT – 4 USES

EDGE CARE

Effortlessly removes unwanted lawn overhangs.

TILLING/BREAKING UP

Compacted soils are broken up without high contact effort and the soil is optimally structured for sowing.

LOOSENING

Regular loosening promotes the development of important micro-organisms in the soil and reduces weed formation.

WEEDING

The oscillating movements of the Gardenboy PLUS remove weeds along with their roots, preventing them from growing back quickly.

GARDENBOY PLUS

Item No:000220.0000

230 V
⚡

- Multifunctional garden aid
- Economical electrical operation

- Electric rotary tiller
- Motor 230 V, power 400 W
- Ergonomic guide handle
- Adjustable second handle for individual adaptation to body size
- Counter-oscillating tine discs protect plants and roots
- Working depth 8.0 cm

Units per pallet:	48
Packaging unit:	1
Type of packaging:	4-colour carton
PU weight:	24.5 kg
PU dim. (H/W/D) in cm:	57.0 x 78.0 x 47.0
Gerät (Länge) in cm:	130.0
Weight:	3.84 kg

PROFILINE SPRAYERS IN INDUSTRY & HANDCRAFT

PROFESSIONAL CLEANING WITH GLORIA

The GLORIA Profiline sprayers have been designed to meet the high demands of daily work with sprayers. Power and resistance as well as durability and ergonomics characterise all hand and pressure sprayers and make them a faithful helper in a wide variety of applications.

The Profiline sprayers are conveniently transported by means of a shoulder strap (5 l) on the body or on the back (10 l). Thanks to the large filling capacity and the long reach of the spray jet, tedious bending, stretching or kneeling is reduced to a minimum.

The powerful sprayers are also characterized by a high working speed. Large areas can be treated just as quickly as angled and hard-to-reach areas.

STANDARD EQUIPMENT

OIL-PROOF VERSION

In addition to regular use and extreme temperature influences, sprayers in particular must withstand oil-containing and aggressive spray media. This is why only high-quality materials are used in the production of GLORIA Profiline models (mostly FKM-seals).

BRASS FLAT JET NOZZLE TYPE 8004E (SPRAY ANGLE 80°)

Ideal for surface treatment

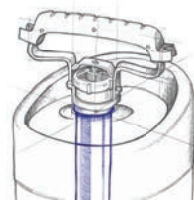

RESIDUAL DRAINAGE

Thanks to the hose connection at the bottom of the container, the applied medium is used up to the last drop – a residual amount does not remain in the container.

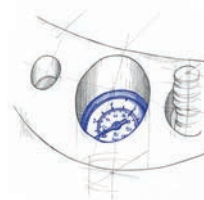

HIGH-QUALITY FKM-SEALS

Most of the GLORIA Profiline sprayers are equipped with FKM-seals, which have excellent temperature and ageing resistance.

HIGH-PERFORMANCE PUMP MADE OF BRASS

All Profiline steel and stainless steel devices are equipped with a powerful and resistant precision pump made of brass.

PRESSURE GAUGE

An integrated indicating pressure gauge shows the user the operating pressure in the device at any time.

QUALITY IN THE DETAILS

FINE SPRAYER PRO 05

Item No: 000094.0000

- Double-acting precision pump: pump 1 x = spray 2 x
- Oil-proof version
- Filling capacity 0.5 l / total capacity 0.6 l
- Seals made of FKM
- Sturdy plastic container
- Continuously adjustable nozzle
- Ergonomically designed pistol grip
- Bottom ring for a safe stand
- Transparent level indicator strip

Units per pallet: 756
Packaging unit: 12
Type of packaging: Carton
PU weight: 2.4 kg
PU dim. (H/W/D) in cm: 28.0 x 41.0 x 25.5
Device (H/W/D) in cm: 24.5 x 14.0 x 10.0
Weight: 0.18 kg

FINE SPRAYER PRO 10

Item No: 000095.0000

- Double-acting precision pump: pump 1 x = spray 2 x
- Oil-proof version
- Filling capacity 1.1 l / total capacity 1.0 l
- Seals made of FKM
- Sturdy plastic container
- Continuously adjustable nozzle
- Ergonomically designed pistol grip
- Bottom ring for a safe stand
- Transparent level indicator strip

Units per pallet: 504
Packaging unit: 12
Type of packaging: Carton
PU weight: 3.2 kg
PU dim. (H/W/D) in cm: 28.0 x 48.0 x 30.5
Device (H/W/D) in cm: 28.0 x 15.0 x 10.0
Weight: 0.22 kg

PRESSURE SPRAYER PRO 100

Item No: 000098.0000

- High-quality brass flat jet nozzle type 8002, 80°
- Oil-proof version
- Filling capacity 1.0 l / total capacity 1.3 l
- Seals made of FKM
- Max. operating pressure 3 bar
- Sturdy plastic container
- Powerful pressure pump
- Ergonomically designed handle
- Safety valve

Units per pallet: 240
Packaging unit: 4
Type of packaging: Carton
PU weight: 1.6 kg
PU dim. (H/W/D) in cm: 32.5 x 32.0 x 26.5
Device (H/W/D) in cm: 30.5 x 15.5 x 13.0
Weight: 0.41 kg

SPECIAL PRESSURE SPRAYER TYP 89

Item No: 000089.0000

- Adjustable hollow cone nozzle with swiveling nozzle head
- Oil-proof version
- Filling capacity 1.0 l / total capacity 1.45 l
- Seals made of FKM
- Max. operating pressure 3 bar
- Efficient precision pump
- Safety valve
- Bottom ring for a safe stand

Units per pallet: 144
Packaging unit: 3
Type of packaging: Carton
PU weight: 2.5 kg
PU dim. (H/W/D) in cm: 32.5 x 49.5 x 19.5
Device (H/W/D) in cm: 29.5 x 18.0 x 16.5
Weight: 0.75 kg

HIGH-PERFORMANCE SPRAYER 505 T PROFILINE

Item No: 000506.0000

- Stainless steel container with pressure gauge
- Oil-proof version
- Filling capacity 5.0 l / total capacity 8.0 l
- Seals made of FKM
- Max. operating pressure 6 bar
- Brass spray lance with flat jet nozzle type 8004 E (80°)
- Powerful brass pump
- Oil-proof hose (length 1.35 m)
- Residual drainage
- Bottom ring for a safe stand
- Portable on shoulder

4 046436 000357

Units per pallet: 63
 Packaging unit: 1
 Type of packaging: Carton
 PU weight: 5.2 kg
 PU dim. (H/W/D) in cm: 58.0 x 23.0 x 22.0
 Device (H/W/D) in cm: 54.0 x 21.0 x 20.0
 Weight: 4.45 kg

HIGH-PERFORMANCE SPRAYER 505 TK PROFILINE

Item No: 000506.2701

- Stainless steel container with pressure gauge
- Oil-proof version
- Integrated compressor connection
- Filling capacity 5.0 l / total capacity 8.0 l
- Seals made of FKM
- Max. operating pressure 6 bar
- Brass spray lance with flat jet nozzle type 8004 E (80°)
- Powerful brass pump
- Oil-proof hose (length 1.35 m)
- Residual drainage
- Bottom ring for a safe stand
- Portable on back

4 046436 000562

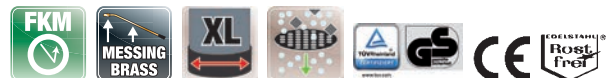

Units per pallet: 63
 Packaging unit: 1
 Type of packaging: Carton
 PU weight: 5.3 kg
 PU dim. (H/W/D) in cm: 58.0 x 23.0 x 22.0
 Device (H/W/D) in cm: 54.0 x 21.0 x 20.0
 Weight: 4.55 kg

HIGH-PERFORMANCE SPRAYER 510 T PROFILINE

Item No: 000512.0000

- Stainless steel container with pressure gauge
- Oil-proof version
- Filling capacity 10.0 l / total capacity 13.7 l
- Seals made of FKM
- Max. operating pressure 6 bar
- Brass spray lance with flat jet nozzle type 8004 E (80°)
- Powerful brass pump
- Oil-proof hose (length 1.35 m)
- Residual drainage
- Bottom ring for a safe stand
- Portable on back

4 046436 000371

Units per pallet: 45
 Packaging unit: 1
 Type of packaging: Carton
 PU weight: 6.5 kg
 PU dim. (H/W/D) in cm: 69.0 x 26.5 x 23.5
 Device (H/W/D) in cm: 66.0 x 23.0 x 22.0
 Weight: 5.6 kg

HIGH-PERFORMANCE SPRAYER 510 TK PROFILINE

Item No: 000512.2700

- Stainless steel container with pressure gauge
- Oil-proof version
- Integrated compressor connection
- Filling capacity 10.0 l / total capacity 13.7 l
- Seals made of FKM
- Max. operating pressure 6 bar
- Brass spray lance with flat jet nozzle type 8004 E (80°)
- Powerful brass pump
- Oil-proof hose (length 1.35 m)
- Residual drainage
- Bottom ring for a safe stand
- Portable on back

4 046436 000456

Units per pallet: 45
 Packaging unit: 1
 Type of packaging: Carton
 PU weight: 6.6 kg
 PU dim. (H/W/D) in cm: 69.0 x 26.0 x 23.5
 Device (H/W/D) in cm: 66.0 x 23.0 x 22.0
 Weight: 5.7 kg

HIGH-PERFORMANCE SPRAYER 405 T PROFILINE

Item No: 000406.0000

- Steel container with pressure gauge
- Oil-proof version
- Filling capacity 5.0 l / total capacity 8.0 l
- Seals made of FKM
- Max. operating pressure 6 bar
- Brass spray lance with flat jet nozzle type 8004 E (80°)
- Powerful brass pump
- Oil-proof hose (length 1.35 m)
- Residual drainage
- Bottom ring for a safe stand
- Portable on shoulder

4 046436 000227

PROFILINE SPRAYERS FOR CLEANING

PROFESSIONAL CLEANING WITH GLORIA

GLORIA sprayers for professional cleaning have been designed to meet the high demands of daily work with the equipment. The conditions of use in the cleaning trade require a maximum of performance, resistance, durability as well as ergonomics.

DURABLE AND RESISTANT

All CleanMaster and FoamMaster sprayers are manufactured from highly resistant materials and seals which withstand contact with aggressive media.

NO DIRECT CONTACT

Whether it be a hand-held sprayer or a large-volume pressure sprayer – all models are designed in such a way, that the danger of the user's skin coming into contact with the spraying agent is as low as possible. On the one hand, this is achieved by large filling funnels (with the exception of the hand sprayers), on the other hand by professional assembly of resistant spray lances and nozzles.

ERGONOMICS

The 5 and 8 l pressure sprayers are comfortably carried on the body by a shoulder strap. Thanks to the reach of the spray jet, tedious bending over, stretching and kneeling are reduced as much as possible.

SAVE TIME & COSTS

The powerful GLORIA sprayers stand out due to their high operating speed. Large areas can be treated just as fast as contorted, difficult-to-access spots. The spraying agents are applied constantly and evenly. This guarantees their efficient use.

CLEANMASTER CM 05

Item No: 000607.0000

- Suitable for applying agents with a pH-value from 2 to 12
- Double-acting precision pump: pump 1 x = spray 2 x
- Filling capacity 0.5 l / total capacity 0.6 l
- Seals made of EPDM
- Sturdy plastic container
- Continuously adjustable nozzle with comfortable grip structure
- Ergonomically designed pistol grip
- Bottom ring for a safe stand

Units per pallet:	768
Packaging unit:	12
Type of packaging:	Carton
PU weight:	2.4 kg
PU dim. (H/W/D) in cm:	27.5 x 43.5 x 25.5
Device (H/W/D) in cm:	23.0 x 12.0 x 10.0
Weight:	0.17 kg

4 046436 022267

CLEANMASTER CM 10

Item No: 000613.0000

- Suitable for applying agents with a pH-value from 2 to 12
- Double-acting precision pump: pump 1 x = spray 2 x
- Filling capacity 1.0 l/total capacity 1.1 l
- Seals made of EPDM
- Sturdy plastic container
- Continuously adjustable nozzle with comfortable grip structure
- Ergonomically designed pistol grip
- Bottom ring for a safe stand

Units per pallet: 504
 Packaging unit: 12
 Type of packaging: Carton
 PU weight: 3.0 kg
 PU dim. (H/W/D) in cm: 30.5 x 49.5 x 27.5
 Device (H/W/D) in cm: 27.5 x 12.5 x 12.0
 Weight: 0.21 kg

CLEANMASTER CM 12

Item No: 000615.0000

- Suitable for applying agents with a pH-value from 2 to 12
- Filling capacity 1.25 l/total capacity 1.55 l
- Seals made of EPDM
- Max. operating pressure 3 bar
- Sturdy plastic container
- Continuously adjustable hollow cone nozzle
- Bottom ring for a safe stand

Units per pallet: 144
 Packaging unit: 4
 Type of packaging: Carton
 PU weight: 3.5 kg
 PU dim. (H/W/D) in cm: 34.0 x 37.0 x 34.5
 Device (H/W/D) in cm: 32.5 x 17.5 x 16.0
 Weight: 0.68 kg

CLEANMASTER CM 50

Item No: 000620.0000

- Suitable for applying agents with a pH-value from 2 to 12
- Plastic spray lance with acid-proof flat jet nozzle
- Filling capacity 5.0 l/total capacity 7.0 l
- Seals made of EPDM
- Max. operating pressure 3 bar
- Sturdy plastic container
- Hose made of reinforced PVC
- Bottom ring for a safe stand
- Portable on shoulder
- Extension lance (length 0.5 m)

Units per pallet: 100
 Packaging unit: 4
 Type of packaging: Blister
 PU weight: 8.3 kg
 PU dim. (H/W/D) in cm: 56.0 x 37.5 x 42.0
 Device (H/W/D) in cm: 54.5 x 19.0 x 17.5
 Weight: 1.8 kg

CLEANMASTER EXTREME EX 100

Item No: 000618.0000

- Suitable for applying agents with a pH-value from 5 to 10
- Resistant to petrol, benzol, oil, alcohol and agents with organic solvent content
- Filling capacity 1.0 l/total capacity 1.3 l
- Container made of highly resistant polyethylene plastic
- Seals made of FKM+
- Max. operating pressure 3 bar
- Spray head made of polyoxymethylen plastic
- Continuously adjustable hollow cone nozzle
- Oil-proof version

Units per pallet: 240
 Packaging unit: 4
 Type of packaging: Carton
 PU weight: 2.85 kg
 PU dim. (H/W/D) in cm: 34.0 x 32.0 x 26.0
 Device (H/W/D) in cm: 30.0 x 16.5 x 13.0
 Weight: 0.48 kg

CLEANMASTER EXTREME EX 05

Item No: 000608.0000

- Suitable for applying agents with a pH-value from 4 to 11
- Ideal for surface disinfection
- Double-acting precision pump: pump 1 x = spray 2 x

- Filling capacity 0.5 l/total capacity 0.6 l
- Seals made of FKM
- Sturdy plastic container
- Continuously adjustable hollow cone nozzle
- Ergonomically designed pistol grip
- Bottom ring for a safe stand
- Oil-proof version

Units per pallet: 768
Packaging unit: 12
Type of packaging: Carton
PU weight: 1.9 kg
PU dim. (H/W/D) in cm: 27.5 x 43.5 x 18.5
Device (H/W/D) in cm: 27.5 x 11.0 x 9.0
Weight: 0.17 kg

CLEANMASTER EXTREME EX 10

Item No: 000614.0000

- Suitable for applying agents with a pH-value from 4 to 11
- Ideal for surface disinfection
- Double-acting precision pump: pump 1 x = spray 2 x

- Filling capacity 1.0 l/total capacity 1.1 l
- Seals made of FKM
- Sturdy plastic container
- Continuously adjustable hollow cone nozzle
- Ergonomically designed pistol grip
- Bottom ring for a safe stand
- Oil-proof version

Units per pallet: 480
Packaging unit: 12
Type of packaging: Carton
PU weight: 2.3 kg
PU dim. (H/W/D) in cm: 39.0 x 42.0 x 23.5
Device (H/W/D) in cm: 33.0 x 12.0 x 10.5
Weight: 0.16 kg

CLEANMASTER PERFORMANCE PF 12

Item No: 000616.0000

- Suitable for applying agents with a pH-value from 2 to 9
- Ideal for surface disinfection
- Oil-proof version

- Filling capacity 1.25 l/total capacity 1.55 l
- Seals made of FKM
- Max. operating pressure 3 bar
- Sturdy plastic container
- Continuously adjustable hollow cone nozzle
- Bottom ring for a safe stand
- Transparent container

Units per pallet: 144
Packaging unit: 4
Type of packaging: Carton
PU weight: 3.5 kg
PU dim. (H/W/D) in cm: 34.0 x 37.0 x 34.5
Device (H/W/D) in cm: 32.5 x 17.5 x 16.0
Weight: 0.68 kg

CLEANMASTER PERFORMANCE PF 50

Item No: 000622.0000

- Suitable for applying agents with a pH-value from 2 to 9
- Ideal for surface disinfection
- Oil-proof version

- Filling capacity 5.0 l/total capacity 7.0 l
- Seals made of FKM
- Max. operating pressure 3 bar
- Sturdy plastic container
- Plastic spray lance with acid-proof flat jet nozzle
- Oil-proof hose made of reinforced PVC
- Bottom ring for a safe stand
- Transparent container
- Portable on shoulder
- Extension lance (length 0.5 m)

Units per pallet: 100
Packaging unit: 4
Type of packaging: Blister
PU weight: 8.3 kg
PU dim. (H/W/D) in cm: 56.0 x 36.5 x 42.0
Device (H/W/D) in cm: 54.5 x 19.0 x 17.5
Weight: 1.8 kg

APPLICATION OF CLEANING FOAM

The GLORIA foam sprayers transform cleaning agent into effective cleaning foam, which can be optimally distributed over the entire surface to be cleaned during spraying.

The foam can work intensively and achieves an even more thorough cleaning effect. Cleaning foam is economical to use and ensures a significantly lower use of resources.

FOAMSPRAYERS

FOAMYCLEAR 100

Item No: 000650.0000

- Seals made of resistant FKM
- Set of foam cartridges (vary the degree of foaming)

- Filling capacity 1.0 l / total capacity 1.3 l
- Recommended filling capacity 0.5 l
- Max. operating pressure 3 bar
- Sturdy plastic container
- 110° spray angle

Units per pallet: 216
Packaging unit: 6
Type of packaging: Carton
PU weight: 3.9 kg
PU dim. (H/W/D) in cm: 40.5 x 34.0 x 28.0
Device (H/W/D) in cm: 29.0 x 19.0 x 13.0
Weight: 0.5 kg

FOAMMASTER FM 10

Item No: 000655.0000

- Suitable for applying agents with a pH-value from 5 to 10
- Set of foam cartridges (vary the degree of foaming)

- Filling capacity 1.0 l / total capacity 1.55 l
- Recommended filling capacity 0.75 l
- Seals made of FKM
- Max. operating pressure 3 bar
- Sturdy plastic container
- Flat jet nozzle with 110° spray angle
- Bottom ring for a safe stand

Units per pallet: 144
Packaging unit: 4
Type of packaging: Carton
PU weight: 3.1 kg
PU dim. (H/W/D) in cm: 34.0 x 36.0 x 34.0
Device (H/W/D) in cm: 31.0 x 20.0 x 13.0
Weight: 0.50 kg

FOAMMASTER FM 10 FLEX

Item No: 000656.0000

- Suitable for applying agents with a pH-value from 5 to 10
- Set of foam cartridges (vary the degree of foaming)
- Extension lance with flexible joint

- Filling capacity 1.0 l / total capacity 1.55 l
- Recommended filling capacity 0.75 l
- Seals made of FKM
- Max. operating pressure 3 bar
- Sturdy plastic container
- Flat jet nozzle with 80° spray angle
- Bottom ring for a safe stand

Units per pallet: 192
Packaging unit: 4
Type of packaging: Carton
PU weight: 2.8 kg
PU dim. (H/W/D) in cm: 34.5 x 30.5 x 30.5
Device (H/W/D) in cm: 31.0 x 20.0 x 13.0
Weight: 0.6 kg

TOP FOAM CAR SHAMPOO, 1 L

Item No: 001160.0000

- Special shampoo for car cleaning
- Powerful and fast acting concentrate
- EXTRA high degree of foaming
- Dosage approx. 15 – 20 ml per 1 l water

Packaging unit: 12
Type of packaging: UmCarton
Bottle: Ø 8.0 cm
PU weight: 13.5 kg
PU dim. (H/W/D) in cm: 38.0 x 17.0 x 25.0
Weight: 1.05 kg

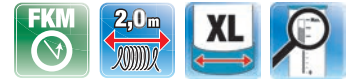

FOAMMASTER FM 30

Item No: 000658.0000

- Suitable for applying agents with a pH-value from 5 to 10
- Flat jet nozzle with 110° spray angle
- Set of foam cartridges (vary the degree of foaming)

- Filling capacity 3.0 l / total capacity 5.0 l
- Seals made of FKM
- Max. operating pressure 3 bar
- Sturdy plastic container
- Plastic spray lance
- Spiral hose (length 2.0 m)
- Portable on shoulder

Units per pallet:	96
Packaging unit:	4
Type of packaging:	Blister
PU weight:	6.6 kg
PU dim. (H/W/D) in cm:	45.0 x 42.5 x 36.5
Device (H/W/D) in cm:	45.0 x 21.0 x 18.0
Weight:	1.5 kg

FOAMMASTER FM 50

Item No: 000660.0000

- Suitable for applying agents with a pH-value from 5 to 10
- Plastic spray lance with flat jet nozzle (110°)
- Set of foam cartridges (vary the degree of foaming)

- Filling capacity 5.0 l / total capacity 12.2 l
- Seals made of FKM
- Max. operating pressure 3 bar
- Sturdy plastic container
- Spiral hose (length 2.5 m)
- Infinitely variable pressure regulator from 1.0 – 3.0 bar
- Bottom ring for a safe stand
- Integrated compressor connection
- Portable on shoulder

Units per pallet:	36
Packaging unit:	1
Type of packaging:	Blister
PU weight:	3.6 kg
PU dim. (H/W/D) in cm:	65.0 x 25.5 x 23.5
Device (H/W/D) in cm:	63.0 x 23.0 x 22.0
Weight:	2.0 kg

ACCESSORIES & SPARE PARTS

BRASS EXTENSION LANCE TYPE 124

Item No: 000124.0000

- Suitable for high-performance sprayers, pressure sprayers and all knapsack sprayers (except type 2000)
- Outer diameter 9 mm
- Length 0.5 m

4 006325 501747

Packaging unit: 6
Type of packaging: Blister

BRASS EXTENSION LANCE TYPE 110

Item No: 000110.0000

- Suitable for high-performance sprayers, pressure sprayers and all knapsack sprayers (except type 2000)
- Outer diameter 9 mm
- Length 1.0 m

4 006325 501617

Packaging unit: 6
Type of packaging: Blister

PLASTIC TELESCOPIC SPRAY LANCE

Item No: 727658.0000

- Suitable for all high-performance sprayers
- Complete including connection hose and valve for pest control
- Telescopic in 3 stages from 0.9 m to 3.0 m

4 006325 709341

Packaging unit: 1
Type of packaging: Blister with card hanger

BRASS TELESCOPIC EXTENSION LANCE

Item No: 000132.0000

- For high-performance sprayers, pressure sprayers with brass quick-acting valve
- Steplessly extractable from 1.0 to 2.0 m

4 006325 501907

Packaging unit: 6
Type of packaging: Blister

BRASS SPRAY LANCE COMPLETE INCLUDING BRASS NOZZLE

Item No: 706610.0000

- Suitable for type 229, 229 S, 229 T, 229 TS, 256, 257, prima-series and primex 5
- Adjustable brass nozzle

4 006325 612726

Packaging unit: 3
Type of packaging: Blister with card hanger

BRASS EXTENSION LANCE TYPE 109

Item No: 000109.0000

- Suitable for high-performance sprayers, pressure sprayers and all knapsack sprayers (except type 2000)
- Outer diameter 9 mm
- Length 0.7 m

4 006325 501600

Packaging unit: 6
Type of packaging: Blister

PLASTIC TELESCOPIC SPRAY LANCE COMPLETE INCLUDING BRASS NOZZLE

Item No: 000122.0000

- Suitable for types 229 S/T/TS, 256, 257, 261, 262, prima-series, primex 5 and Pro 5
- Steplessly extractable from 0.58 to 1.0 m

4 006325 670115

Packaging unit: 3
Type of packaging: Blister with card hanger

BRASS TELESCOPIC EXTENSION LANCE

Item No: 000131.0000

- Suitable for high-performance sprayers, pressure sprayers and all knapsack sprayers (except type 2000)
- Steplessly extractable from 0.5 to 1.0 m

4 006325 501860

Packaging unit: 6
Type of packaging: Blister

BRASS SPRAY LANCE COMPLETE INCLUDING BRASS NOZZLE

Item No: 706500.0000

- Suitable for all high-performance sprayers and for all knapsack sprayers (except type 2000)

4 006325 612658

Packaging unit: 3
Type of packaging: Blister with card hanger

BRASS SPRAY LANCE COMPLETE

Item No: 726898.0000

- Suitable for prima 5, prima 8 and 229 S from 3/95
- With nozzle made of plastic incl. brass insert, adjustable

4 006325 631314

Packaging unit: 3
Type of packaging: Blister with card hanger

COMPRESSOR CONNECTION VALVE

Item No: 728381.0000

- No need for manual pumping due to automatic build-up of pressure
- Suitable for a variety of 3 – 8 L GLORIA pressure sprayers made of plastic

4 046436 021284

Packaging unit: 3
Type of packaging: Blister with card hanger

SPRAY SHIELD TYPE 260 (100 X 395 MM)

Item No: 000260.0000

- Suitable for high-performance sprayers and knapsack sprayers
- Integrated flat jet nozzle
- Nozzle Type 8002 E BBA recognised
- Including suspension lug

Packaging unit: 3
Type of packaging: Without packaging

SPRAY SHIELD TYPE 270 (115 X 335 MM)

Item No: 000270.0000

- Suitable for all high-performance sprayers and knapsack sprayers and all 3, 5 and 8 L garden-/hobby-pressure sprayers from GLORIA
- Integrated flat jet nozzle
- Including suspension lug

Packaging unit: 3
Type of packaging: Without packaging

SPRAY SHIELD TYPE 280 (Ø 110 MM)

Item No: 000280.0000

- Suitable for prima-series and primex 5
- Simple subsequent assembly by pushing it onto the nozzle of the spray lance
- Diameter: 110 mm
- Including suspension lug

Packaging unit: 3
Type of packaging: Blister with card hanger

PLASTIC QUICK-ACTING VALVE

Item No: 726896.0000

- Suitable for all 3 – 8 L garden-/hobby-pressure sprayers from GLORIA
- Including sieve tube and union nut

Packaging unit: 3
Type of packaging: Blister with card hanger

BRASS QUICK-ACTING VALVE

Item No: 707340.0000

- Suitable for all high-performance sprayers
- Including handle, sieve tube and spiral threaded clamp

Packaging unit: 3
Type of packaging: Blister with card hanger

BRASS QUICK-ACTING VALVE

Item No: 706590.0000

- Suitable for all 3 – 8 L garden-/hobby-pressure sprayers from GLORIA
- Including handle, sieve tube and spiral threaded clamp

Packaging unit: 3
Type of packaging: Blister with card hanger

PLASTIC PUMP COMPLETE

Item No: 725770.0000

- Suitable for all 3 – 8 L garden-/hobby-pressure sprayers from GLORIA

Packaging unit: 1
Type of packaging: Blister with card hanger

BRASS HIGH-PERFORMANCE PUMP COMPLETE, OIL-PROOF

Item No: 728058.0000

- Suitable for all high-performance sprayers

Packaging unit: 1
Type of packaging: Blister with card hanger

PRESSURE GAUGE WITH SEAL 6 BAR

Item No: 706410.0000

- Suitable for all high-performance sprayers

Packaging unit: 1
Type of packaging: Blister with card hanger

PRESSURE REGULATOR

Item No: 728971.0000

- Infinitely variable operating pressure from 1.0 to 3.0 bar
- If operating pressure falls under set value, valve closes automatically
- Suitable for piston knapsack sprayer series Hobby and Pro and piston knapsack sprayer type 2016

Packaging unit: 1
Type of packaging: Blister with card hanger

SPRAYING HOSE (1.40 M)

Item No: 706950.0000

- Suitable for types 141, 141 T, 142, 142 T, 142 TG, 165 S, 165 SG, 172, 172 R, 172 RT, 172 RTG, 172 T, 176, 176 T, 176 TI, 178, 2000 F + S, 2001 F + S, 2001 SG/RTI and all high-performance sprayers from model year 2007
- Including 2 spiral threaded clamps

Packaging unit: 3
Type of packaging: Blister

SPRAYING HOSE (1.25 M)

Item No: 706940.0000

- Suitable for types 229 S, 229 T, 229 TS, 256, 257 and prima 5
- Including 2 spiral threaded clamps and 2 hose connection nuts

Packaging unit: 3
Type of packaging: Blister

VALVE DIAPHRAGM (FLUTTER VALVE)

Item No: 728086.0000

- Suitable for all not oil-proof high-performance sprayers from model year 2007 until model year 2011 and all not oil-proof 5 l pressure sprayers

4 046436 000937

Packaging unit: 3
Type of packaging: Blister with card hanger

2 X CUP SEAL (Ø 35 MM), NOT OIL-PROOF

Item No: 725780.0000

- Suitable for types 229 TS, 256, 257, 261, 262, prima 5 types 39 TE / 42 E and prima 8 (from model year 03/94)

4 006325 620745

Packaging unit: 3
Type of packaging: Blister

2 X CUP SEAL (Ø 30 MM), NOT OIL-PROOF

Item No: 706910.0000

- Suitable for prima 5 types 39 TE/42 E (until model year 03/94), 208, 229 S and 229 T

4 006325 612863

Packaging unit: 3
Type of packaging: Blister

COMPRESSOR CONNECTION, OIL-PROOF

Item No: 000135.0000

- Suitable for 6 bar high-performance sprayers
- Safety valve
- Compressed air connection (tyre valve)
- Non-return valve

4 006325 501938

Packaging unit: 1
Type of packaging: Blister with card hanger

VENTILATING VALVE, OIL-PROOF

Item No: 727984.0000

- Suitable for prima-series, primex 5, Pro 5, Pro 8, 229 S and 229 TS

4 046436 000395

Packaging unit: 3
Type of packaging: Blister with card hanger

SPECIAL FLAT JET NOZZLE 111

Item No: 000111.0000

- Suitable for all high-performance sprayers and all knapsack sprayers (except type 2000)
- Type 8002 E (80°)

4 006325 501824

Packaging unit: 3
Type of packaging: Blister

SPECIAL LIMING NOZZLE

Item No: 000112.0000

- Suitable for all steel sprayers and type 162
- For liming only

4 006325 501631

Packaging unit: 3
Type of packaging: Blister

HOLLOW CONE NOZZLES

Item No: 706840.0000

- Suitable for types 89, 228, 229, 229 S, 229 T, 229 TS, 251, 256, 257, 259 and prima-series

4 006325 612832

Packaging unit: 3
Type of packaging: Blister

HOLLOW CONE NOZZLES, 2 X Ø 1 MM, 1 X Ø 2 MM

Item No: 706810.0000

- Suitable for all GLORIA high-performance and knapsack sprayers
- Including atomiser

4 006325 612825

Packaging unit: 3
Type of packaging: Blister

YORK END SPRAYER

Item No: 724480.0000

- Suitable for all high-performance sprayers (6 bar) and knapsack sprayers

4 006325 621995

Packaging unit: 3
Type of packaging: Blister

HOLLOW CONE NOZZLE Ø 2 MM INCLUDING ATOMISER

Item No: 725820.0000

- Suitable for all high-performance sprayers and all knapsack sprayers (except type 2000)
- Hollow cone nozzle type G-H 116-80, spray angle 80°
- Output rate: 1.16 litres per minute at 2 bar

4 006325 620684

Packaging unit: 3
Type of packaging: Blister

HOLLOW CONE NOZZLE Ø 1 MM INCLUDING ATOMISER

Item No: 725830.0000

- Suitable for all GLORIA high-performance sprayers and knapsack sprayers (except type 2000)
- Hollow cone nozzle type G-H 49-55, spray angle 55°
- Output rate: 0.49 litres per minute at 2 bar

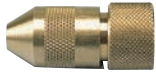

4 006325 620875

Packaging unit: 3
Type of packaging: Blister

HOLLOW CONE NOZZLE COMPLETE, ADJUSTABLE

Item No: 726029.0000

- Suitable for types 89, 228, 251, 256, 259, 261 and 262
- Spray angle 0 – 60°
- Output rate: 0.52 Litres per minute at 2 bar

Packaging unit: 3
Type of packaging: Blister

FLAT JET NOZZLE TYPE 8004E

Item No: 716440.0000

- Suitable for all high-performance sprayers
- Spray angle 0 – 80°
- Output rate: 1.29 Litres per minute at 2 bar

Packaging unit: 3
Type of packaging: Blister

SET OF FOAM CARTRIDGES (3 PC.)

Item No: 728524.0000

- Suitable for GLORIA FoamMaster models
- To set the correct degree of foaming
- Can be replaced with just a few twists
- Colour-coded to enable easy distinction

Packaging unit: 4
Type of packaging: Blister with card hanger

HOLLOW CONE NOZZLE COMPLETE, ADJUSTABLE

Item No: 726984.0000

- Suitable for prima 5 and primex 5

Packaging unit: 3
Type of packaging: Blister

SILICONE GREASE, 6 G. TUBE

Item No: 728781.0000

- Silicone grease for the maintenance of seal rings and cup seals

Packaging unit: 3
Type of packaging: Blister

CLEANING AGENT FOR SPRAYERS 250 ML

Item No: 001100.0000

- Effective against residues of plant protecting agents
- Protects against lime and corrosion
- Bottle lasts for up to 10 cleaning processes (for containers with a capacity of 5 litres)

Packaging unit: 5
Type of packaging: Without packaging

SET OF SEALS

Item No: 728628.0000

- Suitable for piston knapsack sprayers Hobby 1800, Pro 1300 and Pro 1800

Packaging unit: 3
Type of packaging: Blister

O-RINGS FOR PUMP (Ø 28.15 X 3.5 MM), NOT OIL-PROOF

Item No: 706460.0000

- Suitable for all high-performance sprayers

Packaging unit: 3
Type of packaging: Blister

O-RINGS FOR PUMP (Ø 38 X 5 MM), NOT OIL-PROOF

Item No: 706400.0000

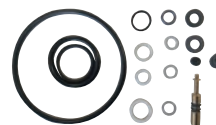

- Suitable for all pressure and high-performance sprayers

Packaging unit: 3
Type of packaging: Blister

SET OF SEALS FOR PUBLIC HEALTH SPRAYER

Item No: 728968.0000

- Suitable for public health sprayer ProControl 100

Packaging unit: 3
Type of packaging: Blister

SET OF SEALS

Item No: 725920.0000

- Suitable for types 217, 217 G and 251

TERMS OF PAYMENT AND DELIVERY

I. General terms and conditions

Our general terms and conditions apply exclusively to all business relations with our customers. Other conditions are excluded. All agreements must be made in writing. This includes verbal promises.

II. Quotations

Our quotations are not legally binding and are subject to change without notice. A contract is only concluded with us through our written order confirmation or by delivery on the basis of an order. Incoming orders can be accepted by us within two weeks. GLORIA reserves the right to modify the design and execution of the goods for the purpose of further technical development, even after acceptance of the order, provided that this does not unreasonably affect the interests of the customer.

III. Price adjustment

Should the costs calculated by us, in particular the cost of salary and wages, materials, transport and / or energy, change compared to the time of our offer and should our production costs increase by more than 8 % in total as a result, we shall be entitled to request a corresponding price adjustment.

IV. Delivery

Delivery deadlines are not binding. Delivery deadlines are only binding if they are expressly confirmed by us in writing as binding. The delivery period shall be deemed to have been observed if the goods have left our warehouse, by the end of the delivery deadline and/or if the purchaser has been notified that the goods are ready for dispatch. If a non-binding delivery date is exceeded by more than six weeks, the purchaser has the right to request that we deliver within a reasonable period in writing. If we do not deliver the goods by the end of the grace period, the buyer may withdraw from the contract in the form of a written declaration. Partial deliveries are permissible within the delivery period. Under-deliveries shall be accepted by the purchaser. In the event of force majeure, in particular war, hostility, attack, acts of foreign enemies, large-scale military mobilisation, civil war, riot, rebellion and revolution, military and other seizures of power, insurrection, acts of terrorism, sabotage or piracy, currency and trade restrictions, embargo, sanctions, lawful or unlawful official acts, compliance with laws or government orders, expropriation, confiscation of assets, requisition, nationalisation, plague, epidemic, pandemic, natural disaster or extreme natural event, explosion, fire, destruction, armament, prolonged failure of means of transport, telecommunications, information systems or energy, general labour unrest such as boycotts, strikes, lock-outs, slowdowns, occupation of factories and buildings, shortage of raw materials, etc. the delivery period shall be extended accordingly. In the event of such unforeseen events, we shall be entitled to withdraw from the contract in whole or in part, without any obligation to pay damages. In such cases, the purchaser may demand a statement from us as to whether we intend to fulfil the contract within a reasonable period of time. If we do not provide this, the buyer may withdraw from the contract.

V. Transfer of risk, storage charge

For all shipments of goods, the risk shall pass to the buyer upon transfer of the goods to the forwarder / carrier. If you do not collect the ordered goods within 5 working days after notification of their readiness for collection, we may invoice a storage charge of 1.00 EURO per pallet and per day.

VI. Guarantee

Our products are guaranteed in accordance with our guarantee conditions, which can be found at www.gloria-garten.de/garantiebestimmungen.

VII. Warranty

We provide a warranty to consumers, (within the meaning of sect. 13 German Commercial Code) in accordance with the statutory provisions.

The warranty period for companies, (within the meaning of sect. 14 German Commercial Code) is twelve months. In the event of faulty or incorrect delivery, we reserve the right, at our discretion, to repair or replace the delivered goods. Our commercial customer is only entitled to demand a reduction of the purchase price (reduction) or rescission of the purchase contract after two unsuccessful rectifications and/or replacement deliveries.

VIII. Retention of title

The delivered goods shall remain our property until full payment of our claim, including future claims, for whatever legal reason, even if payments are made for specially designated claims. In the case of a current account, the reserved property shall be

deemed as security for our balance claim. The buyer may only sell our property in the ordinary course of business and as long as he is not in default. He shall only be entitled to resell the goods under retention of title subject to the proviso that the claims arising from the resale of the reserved goods are hereby assigned to us and that his customers cannot offset the claims arising from the resale against counterclaims. The purchaser is not entitled to dispose of the reserved goods in any other way. In particular, he is not permitted to assign them by way of security or to pledge them. If we become aware of circumstances which are likely to reduce the creditworthiness of the customer, we may, at any time, prohibit the resale of the delivered goods under retention of title after setting a grace period without success and demand their return at the customer's expense. In this case, the customer shall reimburse us for additional freight charges, dispatch costs and other expenses, as well as any reduction in value. The buyer is entitled to collect claims from the resale until this is revoked by us at any time. At our request, the customer is obliged to inform his customers of the assignment to us and to provide us with evidence of the notification as well as to send us the information and documents which are necessary for the collection of the assigned claims with this notification. If the value of the securities intended for us exceeds our claim by more than 20 % in total, we shall be obliged to release the securities at our discretion at the buyer's request. The value of the assigned claim shall be determined according to its nominal amount and that of the goods subject to retention of title according to our sales prices.

IX. Terms of payment

All payments are due upon receipt of the invoice. If payment is not made within 30 days of the due date, default shall occur without a reminder being sent out. We shall then be entitled to demand default interest at the statutory rate. If, after the conclusion of the contract, we become aware of circumstances which impair the creditworthiness of the buyer, all our claims shall become due immediately after a deadline is set, irrespective of the term of any bills of exchange that have been received. We are entitled to demand securities. After the fruitless expiry of a grace period set by us, we shall be entitled to withdraw from the contract and claim damages for non-performance. Our claims can only be offset if the counterclaim is undisputed or where there is a legally binding title. A right of retention can only be asserted by the commercial buyer if it is based on claims from the same contractual relationship.

X. Liability

Our liability is excluded, regardless of the legal basis, contractual or tortious, for slightly negligent breaches of duty, insofar as these do not concern essential contractual obligations, damages from mortal injury, physical injury / impairments to health, guarantees or claims under the Product Liability Act. The same applies to breaches of duty by our vicarious agents.

XI. Data protection

Your data will only be used for the purpose for which it was provided to us. In part, we commission subcontractors as part of the processing of your enquiries, your orders or your use of our services, e.g. transport companies. These companies receive the necessary data exclusively for the execution of this order and use it exclusively for the intended purpose. Our data protection statement can be found at www.gloria-garten.de/datenschutz.

XII. Other provisions

The place of performance shall be the registered office of our company. For all present and future claims arising from the business relationship, including bills of exchange and cheques, the place of jurisdiction is not exclusively the registered office of our company. We shall also be entitled to take legal action against the buyer at the buyer's general place of jurisdiction.

The law of the Federal Republic of Germany shall apply exclusively. The provisions of the UN Sales Convention (CISG) shall not apply. The contractual language shall be German. If parts of our terms and conditions should become ineffective, this shall not affect the validity of the remaining provisions.

The necessary data are stored by our IT department.
